

# GOTHIC POGO FESTIVAL XIV

6th - 10th of June 2019

## ARTIST PREVIEW

# Velvet Kills (PT)

Velvet Kills is a thoroughly modern and urban endeavour, speaking directly to today's society - with all its anxieties, addictions, destructiveness as well as exhilaration. You'll find in their driving beats raw emotion, and a terrific darkness. The sound is complex, almost abstract - a combination of cinematic textures, gritty guitars, and potent vocals.

Please find below some of the latest words from other Magazines and other information:

"Their cold goth music with a hint of punk attitude (we must see them in addition to listening to them) will not fail to warm the coldest hearts to the idea of this fall that falls on us a little early".

- Obscure Magazine

"The duo VK is currently based in Lisbon, In a wild mixture of electro rock, synth-punk, psychedelic, darkwave and post-punk, the songs of the album "Mischievous Urges" offer plenty of variety. From warrant ideas as they might come from Alien Sex Fiend, to gloomy menacing atmospheres - this disc, which is only conceivable in an urban context, offers a real excess of excellent approaches. In their raw design, some titles have the charm of the early 80s Batcave / Deathrock scene, while others have run on the dance floors of hip international dance clubs. Finding something uniform is hard, unifying is only unanimity. Further so, new artists needs the country" - Sonic Seducer Magazine
